EU Type Examination Certificate

Date: 2024/10/17 | *n.* **525244205/OE** | Validity: 2029/10/16

The hereunder described items of Personal Protective Equipment have overcome positively the "EU type examination" (Module B), proving their conformity to the safety and health requirements of the Regulation (EU) 2016/425 (Annex II)

Manufacturer: (Responsible of the PPE)	**LEATT CORPORATION** 12, Kiepersol Cresc., Atlas Gardens – Contermanskloof – DURBANVILLE – ZA-7550 CAPE TOWN – SOUTH AFRICA
Type of PPE:	**Motorcyclists' limb joint impact protector**
Category of PPE:	**II** : "medium" risks. This certificate is based on reference standards listed below: its validity is no longer ensured should new version of the standards come into force.
Model	**"Knee & Shin Guard Dual Axis Pro"** 3 colorways: BLACK (**5024060790-792**) – FORGE (**-810-812**) – WHITE (**830-832**)
Description:	Description of the **BLACK** version: design: multilayer construction; upper and lower external shell: black PP partially perforated (Dushanzi K8003) white marked "LEATT"; central external shell: black PP partially perforated (Dushanzi K8003); mid-layer: black polymeric net (Z-003); padding: black EVA foam (EVA-LEATT-22001-L) glued to external side; fastening system: - black hook and loop fabric; - black velvet; - black Lycra coupled with anthracite foam material. Pictures of ALL colorways: page 2.
Technical Standard:	**EN 1621-1:2012** Motorcyclists' protective clothing against mechanical impact - Part 1: Motorcyclists' limb joint impact protectors: requirements and test methods.
Intended use:	preventive use against mechanical impacts during on-road and off-road motorcycling activities. This item must always be properly connected to suitable motorcycling/cycling garments and with all other suitable P.P.E in order to ensure the most complete protection of the body.
Size range:	**"K+L"** (= Knee, Upper & Middle Tibia) **Type A** **COMMERCIAL SIZES from S/M to XXL:** fabric sleeve to fit different leg-circumferences (see: Information Notice)
Technical File:	**DC-17695**
Test report:	**RCT n° 4338123/E**

EU Type Examination Certificate

Date: 2024/10/17 — *n.* **525244205/OE** — Validity: 2029/10/16

Functions and performance levels:

To reduce the severity of injuries caused by impacts. The protectors give a limited protection against mechanical impact in case of accidents.

Method: planar face drop striker at 50 J;
MANDATORY requirements: from the values of the transmitted force obtained at standard ambient conditions and after hydrolytic treatment (= wet conditions) the performance reached = *level 1*.

The overall performance level achieved is therefore **level 1**.

Note: The Standard provides 2 performance levels with level 2 meaning the higher performance. The protective functions depend on the correct positioning of the protector, which falls within the responsibility of the user.

Marking:

- printed on several label stitched to the protector and displaying the following info:
- CE Marking;
- Name/Logo and complete address of the Manufacturer + Europe & extra-EU Distributors;
- item designation (commercial name + code: unique/unambiguous);
- pictogram for motorcycling use, with indication of the protector type and size as well as the overall performance level achieved during laboratory tests + nr. and year of the Technical Standard of reference;
- the "i in the booklet" pictogram inviting the user to read the User Manual;
- barcode indicating lot / production time etc;
- additional important labels: made in, washing/care symbols & instructions, warnings etc.

FORGE

WHITE

BLACK

NOTE: the Technical File contains a more detailed description of the PPE (material, method of assembly, photographs or drawings), performance data, safety functions and level of protection, elements of conformity to the basic and supplementary requirements.
The Technical File is integral part of the present Certification, which has to be kept available by the applicant to be forwarded - upon request - to the entitled person (supervising body, Controlling Officer).
